

# THE FULL LINE OF AGGREGATE CRUSHING EQUIPMENT YOU NEED

Lippmann offers a full line of outstanding aggregate crushing equipment for most every processing application. Best of all, quality Lippmann machinery is available at an incredible value.

When it comes to supplying reliable, quality equipment designed to achieve the lowest cost per ton of material produced, backed by unmatched customer service, Lippmann is the name to know. From crushing to screening and conveying, whether you require unit machines or complete 2- or 3-stage crushing systems, Lippmann has the right solution for your specific operation.

Lippmann can evaluate your site, provide a wealth of experience and application expertise, and deliver the optimum stationary or portable plant solution to produce the aggregate materials you require, within your crushing parameters.

Benefit from the maximum capacity and drastically reduced material preparation costs you'll experience from our impressive line of famous Lippmann heavy duty jaw crushers. Achieve a high reduction ratio, direct control of product gradation and quality cubical products from our extensive line of impact crushers.

For over 78 years, customers have trusted Lippmann. Whatever your aggregate crushing needs, Lippmann has the right equipment, aggregate processing know-how, and aftersales support to make you profitable.

For more information, contact Lippmann-Milwaukee, Inc. today and come see us at CONEXPO-CON/AGG March 2002, Las Vegas, Nevada USA, booth C-6014.
