

YOUR BEST VALUE IN QUALITY WEAR AND REPLACEMENT PARTS WHENEVER YOU NEED THEM

When your living depends on continuous operation of your recycling or aggregate crushing equipment, you can't take chances. You need the right wear and replacement parts, you need them fast, and at a good value. You need to call Lippmann.

When you invest in any quality Lippmann equipment, it comes backed by outstanding parts availability plus the experienced service and applications personnel to keep your machinery up and running at maximum efficiency.

To be competitive in today's C&D recycling or aggregate processing businesses, you need parts that deliver round the clock dependability, low operating cost per hour, high operational performance, long life and high wear resistance. Parts designed for the most demanding applications, the right fit and ease of replacement for minimum downtime. Count on Lippmann to supply your parts needs wherever and whenever you need them. We can even custom stock parts for you. Contact us today.
